EXPERIENCE

Software Architect

📅 7/2018 - ongoing

360Learning (30 developers)

- **Evangelized clean code principles**
 - Increased test coverage from 25% to 70% with a simple testing framework
 - Reduced average function size from 19 to 8 lines
 - Reduced average number of function arguments from 1.6 to 1.2
 - Empowered squads with domain driven design initiatives
- **Guest speaker in other companies**
 - At *Evaneos* (40 devs):
Presented *Clean Architecture* and the main concepts of *tacticalDDD* (see youtu.be/bT4fnb7XcuA - French)
 - At *Algonomia* (4 devs + 3 domain experts)
Explained how to protect the business from technical decisions, from low level clean code techniques to high level architectural guidelines
- **Trained the team**
 - Held monthly team seminars on code architecture and practices
 - Animated a book club on coding books and online conferences
 - Onboarded 6 new members, and confirmed 4 after their probation
 - Took 4 colleagues to the dotJS 2019 conference
- **Improved tooling with DevOps concerns**
 - Migrated 5 repositories to a single monorepo
 - Automated the app deployment on 5 servers

CTO

📅 1/2017 - 2/2018

Libheros (5 developers)

- Hired, managed and trained a team of 5 developers
- Established systematic code reviews for all
- Structured 4 projects: an api in NodeJS, a website in php, an admin platform in Angular, and a mobile app with ionic
- Built a team spirit with a weekly seminar on Clean Code
