EXPERIENCE

Software architect
360Learning (30 developers)
📅 7/2018 – ongoing

- Improved code clarity by advocating clean code practices
- Increased test coverage from 25% to 70% with a simple testing framework
- Held monthly team seminars on code theory (DDD, Clean Architecture, TDD, …)
- Empowered squads with domain driven design initiatives to clarify their scopes (*ongoing*)

CTO
Libheros (5 developers)
📅 1/2017 – 2/2018

- Structured 1 backend, 2 front ends, and 1 ionic mobile app
- Created a team spirit with a weekly reading seminar on Clean Code

Math Teacher
Middle school (6th and 8th grade)
📅 9/2016 – 7/2017

Freelance Web Development
PWC
📅 3/2016 – 9/2016

EDUCATION

Master of Research in Geometry Processing
Technion (Israel)
📅 9/2013 – 2/2016

Master of Science
Ecole Polytechnique (Paris)
📅 9/2010 – 2/2016

OTHER INTERESTS

🎥 **Film directing** (shorts movies, documentaries)
🏛 **Politics & Geopolitics**

👉 **Volunteering** (especially for teaching math)
🎵 **Playing music** (classical piano and rock)

SOME PROJECTS

🌐 Site for coding books quotes

⊙ The Payroll Case Study

▶ Seminar on Clean Architecture / Domain Driven Design (French)

TECHNOLOGIES

TypeScript   NodeJS   VueJS   Docker

git (*rebase, migration to monorepo*)

WebStorm   Kotlin

FAVORITE BOOKS

Clean Code book series

Test-Driven Development by Example

Growing Object-Oriented Software, Guided by Tests

Domain Driven Design

Refactoring

Design Patterns
